ABOUT

MOUNT KENYA DRILLING LIMITED directors have 13+ years of Experience and Our Staff have Consistently Surpassed Customer Expectations through our Projects.

We specialize on boreholes hydrogeological surveys, borehole drillings, test pumping services and solar/electric equipping.

We are striving to emerge as Kenya's leading Borehole Drilling Company.

With our services preferred by many clients who depend on water for various needs of Agricultural, drinking industrial commercial and construction applications

Our MISSION

- To be best service provider of choice in the markets in which we operate.
- To bring and provide water solution to most people in Kenya.
- To understand our customer's requirements and work with them to exceed their expectations.
- To always act in a socially and environmentally responsible way.
- Continue to develop a strong economically sustainable business.
- Earn customers and stakeholders trust.

TECHNICAL CAPABILITIES AND EXPERTISE

We currently bought a rig with a Down-the-hole (DTH) System, Commonly Known As "Drilling Hammer". This Tool Is Operated by High-pressure Compressed Air, Injected Through Hollow Drilling Pipes By Means Of Air Compressor.

Our Responsibility

We always make sure that we fulfil our Environmental Obligations for Sustainable Business Practices. We Aim To Exceed Customer Expectations By Continuously Reviewing Processes, And Training And Motivating Our Workforce. Our Prime Objective Is To Operate To The Highest Standard Of Safety At All Times. We Recognize That Quality Is the Key To Winning Business.

Products & Services

We Specialize In Borehole drilling, borehole test pumping, borehole rehabilitation, installation of electric submersible and surface pumps, installation of solar pumps, installation of hand pumps, installation of tanks and towers, construction of pump and generator houses.
